		LETTER NO.	

STAT TO : FROM: STAT

ATTN:

On Friday, 28 March you mentioned you planned to meet with Security next week about ADP plans.

STAT The attached analysis I made a few years back may be of some use to you in that meeting. I have regularly called it to the attention of each new OS man to SIPS (specifically and a few others. had a copy in 1966). STAT

As the O/S ADP Representative to SIPS I had received 4 different memos itemizing O/S ADP requirements. To simplify study I charted all 4 memos on one chart (TAB E). This clearly indicated how consistent and insistent O/S was in its ADP ideas from July 1964 to July 1966. (An added column today would indicate which of these proposals still were being considered, overlooked, or dropped intentionally.)

The rest of this report was a comparison of the 62 O/S proposals with the 40 HR Team proposals of that date. Both were put on a Grid (TAB G) and the absence of an "X" indicated 23 O/S ideas not related to HR plans. Of that total I considered seven (TAB H) deserving of efforts of that time to get them included in the HR plans.

Although this report is two and a half years old I do believe the overall review in TAB E is worth your time in preparation for your upcoming O/S meeting.
